

  
**ICDMIS 2024**

**International Conference on Data Mining and Information Security  
(ICDMIS 2024)**

*Organized by  
Eminent College of Management and Technology (ECMT)*

*Technically Sponsored by:  
Scientific Innovation Research Group (SIRG), Egypt  
Scientific Research Group in Egypt (SRGE), Egypt  
SETIT Research Lab. Sfax University –Tunisia  
CI2S lab, Argentina*

**Date: 7<sup>th</sup> – 8<sup>th</sup> October, 2024 (Hybrid Mode)**

**\*\*\*\*\* CALL FOR PAPERS \*\*\*\*\***

**SPECIAL SESSION**

**Artificial Intelligence in Cybersecurity and Digital Forensics**

**SESSION ORGANIZERS:**

**Prof. Keshav Kaushik**  
School of Computer Science, University of Petroleum and Energy Studies,  
Dehradun, Uttarakhand, India  
officialkeshavkaushik@gmail.com

**Dr. Manish Verma**  
Assistant Professor, SCSE, Galgotias University, Greater Noida, India  
mv.nitk.2011@gmail.com

**SESSION DESCRIPTION:**

Artificial Intelligence (AI) is a very well branch of current computer science that may help solve computationally massive or complicated

problems in a reasonable amount of time. Digital forensics is a growing field in computing that often necessitates the cognitive examination of enormous volumes of complicated data. As a result, it seems that AI is an excellent strategy for dealing with many of the present issues in digital forensics. The cyberattack surface in today's business settings is enormous, and it's just becoming bigger. As a result, monitoring and strengthening a company's cybersecurity posture requires more than just human interaction. The cyberattack surface in today's business settings is enormous, and it's just becoming bigger. As a result, monitoring and strengthening a company's cybersecurity posture requires more than just human interaction. Therefore, with the theme of ICDMIS 2024, this conference session invites research contributions in the domain of artificial intelligence in cybersecurity and digital forensics.

### **PUBLICATION AND SUBMISSION PROCEDURE**

The conference aims at carrying out double-blind review process. The papers submitted by the authors will be assessed based on their technical suitability, the scope of work, plagiarism, novelty, clarity, completeness, relevance, significance, and research contribution. The conference proceedings will be published in **Springer LNNS Series (Scopus)**.

Submission Link: <https://cmt3.research.microsoft.com/ICDMIS2024>

Submission Deadline: **30<sup>th</sup> June, 2024**

**NOTE: While submitting the paper in this special session, please specify [Artificial Intelligence in Cybersecurity and Digital Forensics] at the top (above paper title) of the first page of your paper.**
